| At the Wellness Development Centre people dealing with mental health issues can improve mental and physical wellbeing by taking part in wellness activities, connecting with others, and contributing to a vibrant community. | Peer Support Services aim to break isolation and provide support from people who understand what it's like to live with mental health issues. One-to-one mentorship is available on a case by case basis. | Kitchen Connections provides an opportunity to volunteer in the kitchen, learn about health and nutrition, and basic employment skills such as teamwork, hospitality, food service, and retail food prep. | The Wellness Recovery Action Plan® or WRAP® is a self-designed prevention and wellness process that anyone can use to get well, stay well, and make their life the way they want it to be. This 6 session course runs on Tuesdays through Thursdays from 9-11am. |
